

AMMF's Information Day Imperial College London, 10 May 2016

Your thoughts ...

Wonderful opportunity to find out just how all the AMMF fundraising efforts of our supporters is invested in medical experts of the highest quality and dedication to the cause... also a bitter sweet chance to meet and chat with members of our unique AMMF CC family in person.

Malcolm Robinson

Very informative day, with all speakers excellent at simplifying very complex genetic and medical issues. Well done for organising, and really pleased to hear the positive steps taken as a direct consequence of AMMF sponsorship. Really impressive.

Craig Saunders

It was an amazingly positive and uplifting day.

Amanda Lofting

... a really fantastic day. So much information on what was an excellent contribution from all the specialists. It also really helped to talk to other people who have experience from this awful disease ...

John Munday

Great meeting, it was inspirational. Well done!

Lynne McCallum CNS, The Christie, Manchester

Great to be a part of this amazing day. Thank you so much AMMF for everything you do.

Derek Owen

... it was very inspiring to meet the whole team and the patients and their relatives – AMMF has made such a positive difference to them, often at the hardest point of their lives. And I also made good contacts with Prof Juan Valle and Prof John Bridgewater!

Professor Stuart Forbes, University of Edinburgh

Thanks AMMF for this very informative day. We learned a lot about CC and met some very inspiring supporters.

Beryl Jones

... such a wonderful and informative meeting. I was pleased to see that so much is going on, and really enjoyed meeting brilliant dedicated doctors and researchers.

Elena Pavlova

Fascinating Cholangiocarcinoma Information Day at the Imperial College on Tuesday. My first experience of what AMMF is all about. The day was intense, with 20 minute slots for each expert in their field. We learned about genomes, proteins and markers and the skill, dedication and curiosity motivating researchers. Early diagnosis is the key and hard to come by, but experts are working on it ceaselessly. Helen Morement, founder of AMMF, brought together all these people - and has created a unique organisation - funding, motivating, communicating and linking. It's all about people and all about compassion. She is exceptional.

Hedli Niklaus

An inspirational AMMF meeting. Already looking forward to working with some new people, including Dr Luke Boulter.

Dr Hayley Whitaker, University College London

First I would like to thank you for allowing me to attend the event yesterday. Although a lot of the detail went over my head, there was sufficient for me to understand the wonderful work that is being done to find a diagnosis, and therefore a cure, for this terrible disease. The ability to be able to talk with others who have been affected was very uplifting and it offers some relief to know that there is a group of people who fully understand what the victims and their loved ones have gone through.

Gerry Law

So humbled and blessed by being with so many dedicated, passionate and committed souls inspired and supported by Helen and Team AMMF.

Angela Martinez

A really valuable day, thank you all.

Jackie Pinfold

I enjoyed the AMMF meeting, and it was good - though not easy - to talk to patients and relatives. Probably everyone should do this.

Professor Richard Syms, Imperial College London

Just wanted to thank you for such a good day ...

Nicki Jackson

Thank you all at AMMF for putting on such an enjoyable and interesting Information Day ... I now feel part of the CC family. The variety of speakers provided people like me with so much information that we would not be able to gain in any other way. It was quite humbling to hear and watch such an enthusiastic group of people ... doing invaluable research in their expectancy to master cholangiocarcinoma at some time in the future. The day also made me realise how much ... AMMF have done over the years to get where we are now.

Brian Low

Thank you for an excellent day ...

Professor Juan Valle, The Christie, Manchester

It was a real pleasure to attend AMMF's Information Day ... I made lots of useful contacts ...

Dr Simon Rushbrook, Norfolk and Norwich University Hospital

It was an absolute privilege to attend AMMF's Information Day and, oh my goodness, what a great recruitment drive for the biobank!

Amanda Ledlie, Imperial College London
