

AMMF's Cholangiocarcinoma Conference

Radisson Blu Hotel, Stansted, Essex, UK

10 May 2018

Your thoughts ...

A most interesting and thought-provoking day. The testimonials from patients and families were a useful reminder to us all of the impact this disease has. The organisation was excellent, and I am very impressed with the charity.

Gill Al-Kadhimi, British Liver Trust

We were amazed at how informative everything was and just as impressed with what a positive impact the charity is having.

David Janes, Director, Point Blank Digital

It was good to hear the variety of research that is happening – from many different angles. And hearing the patients speak was ... humanising. Thank you, it was an amazing event and experience.

Mollie Wilson, University of Edinburgh

Such an interesting conference. It was great to see so many people involved in the care and research of patients with CCA.

Claire Collinson CNS, University Hospital Birmingham

The conference was very good indeed and reflects superbly on AMMF.

Professor Humphrey Hodgson, University College London

I found the patient/carer/relative perspective very beneficial, it really shows the human side of this disease. The new AMMF video is really powerful – very useful to use for patients. I attended last year, and this year's event has gone up a couple of notches. Well done!

Rose Polcaro CNS, Royal Free Hospital London

It was good to meet people with similar experiences as I felt very alone until today.

Serena Murray

I thoroughly enjoyed the day - there is tremendous work ongoing and very interesting exchange of ideas. I very much look forward to next year!

Mr Marc Quinn, University of Liverpool

This conference is unique!

Dr Shijie Cai, Oxford University

Great talks and a nice mix of academic and clinical. Really great conference, very well done and I enjoyed being part of it.

Michelle Myers, Nucana

Such a wonderful day! It was an absolute honour to be involved and I'm very grateful for the opportunity to share our research, and for the support of AMMF.

Dr Ben Dwyer, University of Edinburgh

Thanks to the dedicated AMMF team for this conference. What a lovely day and a good turnout – a really worthwhile experience.

Sabita Maharaj CNS, University Hospital Birmingham

A great perspective on the cutting edge of cholangiocarcinoma treatment.

Rahul Penumaker, Medical Student, Imperial College London

It was such an honour to speak on Nick's behalf. AMMF organised a brilliant conference – as always.

Dr Ben Francis, University of Liverpool

Thank you so much for inviting our young team to the AMMF conference. We all found it incredibly useful for our upcoming trip to Thailand, as well as our medical education in general. Once again it was a great success from what is really an amazing organisation.

Tom O'Connor, Medical Student, Imperial College London

What a great conference this has been. Congratulations!

Christa Kerkorian, Agios

Thank you for organising such an amazing conference, I can't wait for next year!

Andrea Sheardown

The conference was excellent and clearly getting better each time.

Professor Richard Syms, Imperial College London

I found the 'Patients Eye View' really beneficial because it made the research real, showing the impacts of this disease and solidifying what we are trying to achieve, through research.

Thomas Barbera, Imperial College London

Thanks for an excellent conference. It was, as ever, great.

Dr Luke Boulter, University of Edinburgh

I found all of it very interesting and it was good to see all the good work being done.

Brian Postance

Thanks to AMMF for organising a great conference. I very much enjoyed the day.

Professor Maria Hawkins, University of Oxford

A very successful day. I was particularly moved by the patients' personal accounts.

Dr Simon Rushbrook, Norfolk & Norwich University Hospital

Networking with other patients was the best part for me. The word is getting out.

Chris Sheardown

Great meeting – well done!

Dr Shahid A Khan, Imperial College London

I found all the innovations inspirational.

Rebecca Hall CNS, Royal Free Hospital London

It was a pleasure to be at AMMF's conference again this year. An excellent meeting!

Laura Curry, Sirtex

Very useful, well-pitched contemporary update.

Dr Nina Stafford, Research Fellow, Imperial College London

What an enjoyable day, with good speakers.

Marion Barron

I was interested in the direction and large number of potential new therapies.

Christine Messiter

The most beneficial part for me was meeting with other people with the same diagnosis.

Emma Tingley

Thank you for a wonderful meeting.

Professor Simon Taylor-Robinson, Imperial College London

I was very honoured to be invited to the conference and it was beneficial for our learning, and inspirational. Thank you.

Htet Oo, Medical Student, Imperial College London
